SELECTMEN'S REPORT

Looking Back:

In March 2007 voters approved four capital budget items that were completed during the year: 1) a sidewalk on South Street between Front Street and Fourth Street, 2) a new highway truck and snow plow with sander, 3) a used pickup truck for the Fire Department and 4) a new gravel parking lot at the Fire Station to replace parking area taken for the fire station addition. The new equipped highway truck came in under budget at \$96,821 and the old truck was sold for \$7,000 in February 2008. The other items came in on budget.

Budget authorization for demolition of the Old Redmen's Club building and authorization for survey and legal cost required to place conservation easements on Scoutland were not undertaken because proposed costs exceeded budget appropriations. The 2007 budget appropriations were held in liabilities at the end of 2007 and additional budget requests for these two items appear in the 2008 Town Warrant.

Looking Ahead:

As in 2007, the 2008 Town Warrant presents voters with several important decisions that will impact 2008 tax rates and town development in the future. We encourage residents to review the School and Municipal Warrants posted in the Town Hall, the School, the Post Office, and on the Town Web site (www.rollinsford.nh.us/). Articles I-IV will be voted on by ballot at the Town Hall on March 11 between 10AM and 7PM. The remaining Articles will be acted on at the business session of the Town Meeting on Saturday, March 15 at the Rollinsford Grade School starting at 9AM. Voters who cannot vote on the first four Articles on March 11, may vote by absentee ballot obtained from the Town Clerk.

Article II proposed by the Planning Board to amend zoning ordinance is essentially the same as the 2007 warrant Article VI that failed to pass. This amendment places limits on some commercial and multiple family uses in the Suburban Residential zones and the Countryside Residential zone.

Article III proposed by the Planning Board is essentially a minor housekeeping correction that clarifies the difference between a home occupation and a home business as related to the number of permitted children in a child care operation.

Article IV is a petitioned Article, which is essentially the same as Article V in the 2007 warrant that was defeated by the voters. The Planning Board voted not to support this proposed Article after a public hearing was held as required by law. This Article will permit the establishment of single house lots that are accessed by private shared driveways, instead of on class V roads as is currently required. The Selectmen oppose Article IV as petitioned because the Planning Board has not analyzed the full consequences of this change in the zoning ordinance.

Preliminary analysis by the Board of Selectmen indicates that up to 250 new buildable lots would become possible immediately in Rollinsford on private shared driveways. This number would represent nearly a 30% increase in single family units. Currently, the Planning Board has not established standards for private shared driveways in the Subdivision Ordinance. The rate of growth could increase rapidly in the next few years. Public safety issues, impacts on schools, and public service impact must be researched and understood. Impacts on as-

sessed land values could force premature development. The Selectmen feel it is not appropriate to pass this Article before analysis of the environmental, fiscal, and quality of life issues in the Town are completed. Rollinsford is unique because of open space and small town amenities. A mistake in planning could lead to many unanticipated consequences that could not be corrected later. A rush to change our land use ordinances is unwise and unnecessary.

The proposed 2008 Municipal Budget calls for a total appropriation of \$1,919,984 (\$1,276,184 for the operating budget and \$643,800 for capital items). The proposed increase of \$145,677 in the municipal budget is offset by a revenue increase of \$146,597. Thus, the municipal tax rate is not expected to increase.

Employee benefits-health insurance, retirement contributions, fuel costs and a \$25,000 increase in the contingency line item accounts for most of the \$65,550 increase in the operating budget.

The police budget calls for the Police Chief to retire in June and return as Chief for 30 hours per week without health insurance offered by town. A new fulltime patrolman position is also proposed beginning in June 2008. The additional cost of the new patrolman's position would be offset by reductions in the Police Chief salary and reductions in part-time salaries and the overtime line item made possible by the additional patrolman. In the 2009 budget the salary budget would increase about \$10,000 when the new patrolman's position requires financing for the full year.

The \$82,500 increase in the capital budget reflects 2 new capital items for 2008. first, Article XIX proposes an appropriation of \$225,000 to finance a new equipment building and a salt shed to be built near the transfer station building on Jesse Doe Road. This would be financed with funds taken from the Highway Building Fund and town surplus. This item will be paid for with available funds, thus no bonding will be required. The second new capital item (Article XX) requests a \$128,000 appropriation to renovate the leaking Town Hall tower, which needs some significant repairs. Funds from the surplus is also proposed as the means to finance this cost. If the Highway Building is authorized by the Town Meeting, the present Highway Building and its lot on Silver Street would be sold and the revenue used to replace funds withdrawn from the surplus fund.

Article XXIII is a petition warrant article that calls for changing the name of Ross Road back to Old Wentworth Pasture. The Selectmen feel that any new street name that includes the name Wentworth is inappropriate for safety reasons. Rollinsford already has an existing house on a right of way called Wentworth Street that is recognized by the 911 system. The 911 system opposes establishing more than one street in a town that includes part of a name used elsewhere in town, because of possible confusion in dispatching fire, police and ambulance response in time of emergency.

Again Selectmen wish to recognize the many hours of service provided by unpaid volunteers who serve on Boards and Committees in the Town. Likewise, we recognized the contributions of the Police, Fire, Highway, Transfer Station and administrative employees.

Board of Selectmen
Town of Rollinsford
Rollinsford, New Hampshire 03869

Gentlemen:

In planning and performing our audit of the financial statements of the Town of Rollinsford for the year ended December 31, 2006, in accordance with auditing standards generally accepted in the United States of America, we considered Town of Rollinsford's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Rollinsford's internal control

Our consideration of internal control was for the limited purpose described in the proceeding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control. We consider the following deficiencies to be significant deficiencies in internal control:

Monthly Journal Entries

The Bookkeeper prepares monthly journal entries, adjustments, corrections or reclassification entries. These entries are then posted to the general ledger.

It is recommended that the Selectmen review the monthly entries and sign that the entries were reviewed and approved. This was recommended in the prior year report.

Purchase Orders

It was noted that some department heads are ordering goods/services before the purchase orders have been reviewed and approved by the selectmen.

It is recommended that department heads issue purchase orders to the selectmen for approval before goods/services are fulfilled. This would ensure that the selectmen are reviewing and approving the expenditures and department

heads are controlling their expenditures within the approved budget.

Cemetery Funds

The trustee of trust funds maintains a spreadsheet containing the names and amount paid for perpetual care of lots. When compared to the investments handled by the bank, there is a difference. The MS-9 report agrees to the bank amounts. This difference has been ongoing for years.

It is recommended that a reconciliation be done by the trustees and the selectmen to resolve this difference.

Conservation Commission

During the audit, it was noted that invoices could not be found to support certain expenditures.

It is strongly recommended that invoices be reviewed and approved before reimbursement checks are issued.

Fixed Assets

The Town does not maintain records of general fixed assets such as property and equipment with a life expectancy exceeding one year. The recording of fixed assets would fulfill the need to provide for physical dollar value control, and establish accountability for general government capital expenditures over the year.

With the recording of fixed assets, the related depreciation could be determined on an annual basis for the purpose of measuring the total cost of governmental services and evaluating the efficiency of programs. This was recommended in the prior year report.

This Communication is intended solely for the information and use by the Selectmen and State of New Hampshire, Department of Revenue Administration and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,
DUMAIS & FERLAND

ROLLINSFORD FIRE DEPARTMENT ANNUAL REPORT

We responded to 289 calls in 2007 they are as follows:

Mutual Aid	27
MVA	38
Medical Aid	62
Investigations	22
Assist to Public	14
Structure Fire	6
Water Problems	16
Hazardous Mat	5
CO Detectors	4
Vehicle Fire	2
Trees Down	10
Fire Alarm	36
Outside Fires	19
Power lines down	28

All active firefighters in Rollinsford are now Firefighter I certified with the State of New Hampshire. Rollinsford has twelve firefighters that are Emergency Medical Technicians.

This year we were very busy with the spring floods. Many of our volunteers choose to stay and help the citizens and worked for days taking care of flooded basements. The men and women of this department should be commended for their dedication to our town.

I would like to thank the men and women of the Rollinsford Fire Department. They continue to dedicated long hours of protecting the town, training at the fire station and in the classroom, fundraising and volunteering every year to teach fire safety to the children at the Rollinsford Grade School. They also spend the entire day at the Rollinsford Family fun day showing the kids what kind of skills they need to be a firefighter and giving them a chance to try it out for themselves, and in the evening hours are on standby during the fireworks display and dismantling of the equipment. The town is very lucky to have the dedication of these outstanding firefighters and the commitment that they have to this town.

Please consider adopting a fire hydrant near your house by keeping it clear from snow in the winter months. This will keep the fire department and also your neighborhood in case of an emergency.

Respectfully submitted,
Harry S. Knowles, Rollinsford Fire Chief

ROLLINSFORD POLICE DEPARTMENT

Our overall activity continues to increase. We saw a significant increase in burglaries and domestic violence related assaults. 4348 calls for service were generated through the Strafford County Sheriff's Department Dispatch Center.

The majority of our times is spent on criminal investigations, follow ups, and administrative duties, as a direct result of the increase in the calls for service. As a result, less time is spent on patrol deterring the aggressive, drunk, and speeding driver.

Corporal Kristian Kerkensen continues to serve as the department's member to the Strafford County Accident Reconstruction Team. We have utilized their services for two major accidents and a crime scene. The Corporal is currently presenting his first DARE instruction to the students at the Rollinsford Grade School. We wish him and the students the best with the program.

The Town continues to be actively involved in the Pandemic Flue emergency response planning as well all hazards planning. Periodically, we will issue bulletins via the Grade School newsletter and the local newspaper.

If you know someone who is elderly, alone, housebound, has limited mobility issues, is on oxygen, or has other serious medical issues, you may call the Chief and have that person added to our Emergency Check List. In the event of a sustained power outage, storm or other unusual event, the police department will call or stop by the residence to check on the welfare of the individuals on the list and make whatever arrangements necessary, should they need further assistance.

We continue to check homes while the occupants are away on vacation, etc. To be added to the list, just call the station a few days before you leave, provided a little contact information, and while you are away, the officers will check the doors and windows to your home to make sure they are secure and look for attempted or actual break-ins or damage.

Always, lock the doors and windows to your home while away, even if you are just leaving for a few minutes. Always lock the doors to your vehicles, even if you park them in your driveway. There is an element within town that will take advantage of this and rummage through your vehicle if left unlocked.

Should you see or hear anything suspicious or unusual, please call us immediately, no matter how trivial you might think it to be.

The Rollinsford Police Benevolent Association continues to work hard at providing funding to many local youth and sport related organizations and events.

Many thanks to the citizens of Rollinsford for your past and present support I would also like to thank the town officials, elected and appointed members of the fire and highway departments, town committees, and the Rollinsford Grade School

community for their continued support of the police department. The Town of Rollinsford is unique in that it has such a group of dedicated individuals (paid and volunteer) that care so much about this community. When we all work together, only good things can happen.

The Rollinsford Police Department is committed to providing the best service possible to the Rollinsford community.

ROLLINSFORD HISTORICAL COMMITTEE

The Rollinsford Historical Committee was particularly busy in 2007 in its appointed role of preserving and celebrating the town's historic heritage.

It's biggest project was in the replacemnt - again - of the footbridge spanning Fresh Brook. The floodwaters resulting from the severe northeasterly storm that peaked in coastal New Hampshire early on the morning of April 16, 2007, washed out the timber footbridge permitting Newichawannock Trail (also known as Fresh Creek Road) to cross this sizable brook. The timber bridge had been rebuilt in the fall of 2005 and survived without harm the so-called Mother's Day storm on May 14, 2006, although much debris was deposited at the bridge site. The 1.5 mile undeveloped track is one of Rollinsford's most popular hiking trails because of the pastoral beauty and historical ambience it offers. It crosses Fresh Brook not far upstream from Fresh Creek, much of which is now a pond following the construction downstream in Dover of the earthen causeway to allow passage of Gulf Road.

After a good deal of motor and foot reconnaissance, as well as telephone inquiries, the washed-out bridge was located on the shore of Cochecho Country Club. The country club management and supervisory staff were open to whatever course the Town of Rollinsford wished to take. After much discussion, the historical committee decided to sell the bridge to the country club and rebuild the footbridge from the abutments up. Committee members and town resident Dennis Drake, long a committee supporter and volunteer, poured new concrete atop the abutments and built stringers are now six feet above the mean level of the brook, providing that leeway of safety from future storms of the sort that seem to be occuring each spring.

An inaugural hike was held on Sunday, October 14, 2007, to display the new bridge and acquaint those who had not yet hiked the trail with its beauty and history. More than 30 residents and non-residents availed themselves of the opportunity. Some of the hikers opted to continue to St. Albans Cove on the Salmon Falls (Newichawannock) River.

On December 5, 2007, Michael Togias drove up from Massachusetts to present "The Indian Wars of New England", an event co-sponsored by the New Hampshire Humanities Council. In a good-neighbor gesture, American Legion Post No. 47 made its meeting hall available for the public lecture. As with the bridge hike, this presentation garnered a good attendance.

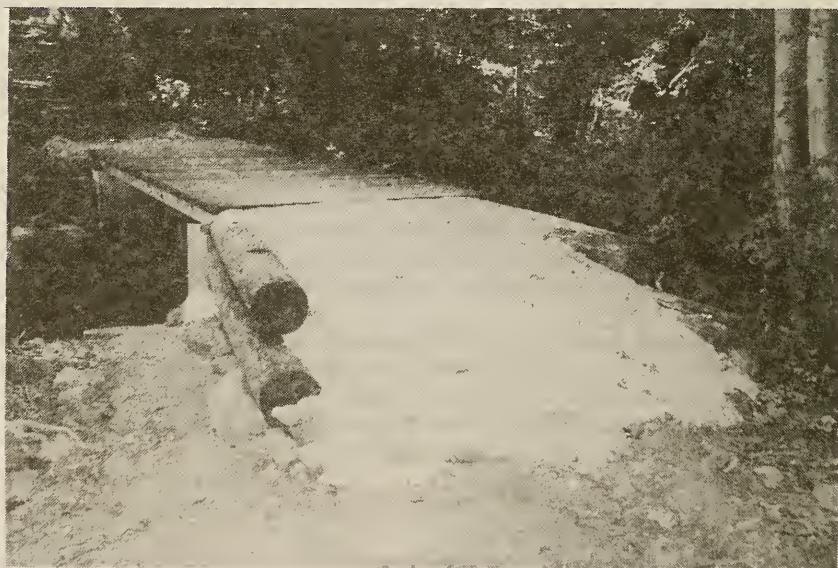

The committee is planning a spring hike in early or mid-May 2008 from Somersworth into Rollinsford along the Newichawannock River, ascending up through Scout Lands to the old railroad trackbed, then into Salmon Falls Village. This hike offers a great opportunity for healthy exercise and splended photographs of our natural heritage in the springtime.

RECYCLING COMMITTEE REPORT

Average tonnage per month of regular household rubbish throughout the year 2007 amounted to 54.62 tons.

This is a reduction of about 8% against the recommended goal of 10% for the year. This is, great and is something that all residents of Rollinsford should be commended for.

By making sure that all recyclable items are placed where they belong at the Transfer Station in 2008, I am sure that we can reduce our average tonnage by another 10%.

Thank you for your help and cooperation.

As we approach having the Town Shed relocated to the Transfer Station area we should be thinking of what we can to make it more user friendly such as having a swap shop area created, putting up a suggestion box, having a few flowers planted around all areas, cutting whatever grass there is plus any other things that anyone has in mind to put a little life in this place that we all visit quite often.

We having a very good and efficient Transfer Station and by all residents working together, we can make it even better and neater than ever.

REPORT OF FOREST FIRE WARDEN AND STATE FOREST RANGER

Your local Forest Fire Warden, Fire Department, and the State of New Hampshire Division of Forests & Lands work collaboratively to reduce the risk and frequency of wildland fires in New Hampshire. To help us assist you, please contact your local Forest Fire Warden or Fire Department to determine if a permit is required before doing ANY outside burning. Under State law (RSA 227-L:17) a fire permit is required for all outside burning unless the ground is completely covered with snow. The New Hampshire Department of Environmental Services also prohibits the open burning of household waste. Citizens are encouraged to contact the local fire department or DES at 1-800-498-6868 or www.des.state.nh.us for more information. Safe open burning requires diligence and responsibility. Help us to protect New Hampshire's forest resources. For more information please contact the Division of Forests & Lands at (603) 271-2214, or online at www.nhdfi.org.

Fire activity was very busy during the spring of the 2007, particularly late April into early May. As the forests and fields greened up in later May the fire danger decreased. However, a very dry late summer created very high fire danger again from August into September, with fire danger reaching very high on Labor Day weekend. Even the dry conditions, the acreage burned was less than half that of 2006. The largest forest fire during the 2007 season burned approximately 26 acres on the side of Wantastiquet Mountain in Chesterfield during the month of May. Our statewide system of 16 fire lookout towers is credited with keeping most fires small and saving several structures this season due to their quick and accurate spotting capabilities. Many homes in New Hampshire are located in the wildland urban interface, which is the area where homes and flammable wildland fuels intermix. Several of the fires during the 2007 season threatened structures, a constant reminder that forest fires burn more than just trees. Homeowners should take measures to prevent a wildland fire from spreading to their home. Precautions include keeping your roof and gutters clear of leaves and pine needles, and maintaining adequate green space around your home of flammable materials. Additional information and homeowner recommendations are available at www.firewise.org. Please help Smokey Bear, your local fire department and the state's Forest Rangers by being fire wise and fire safe!

Officers' Report

The Commissioners have had another busy year.

Selling your home, please notify the District. There have been some probelms in the past, so to avoid legal problems, please call the office **before** your closing date at 742-8124 on Tuesdays and Fridays.

WATER

Several changes have had to be made to the arsenic treatment facility. District has added another automatic valve for backwashing. Backwashing can cause discolored water, therefore the District will try backwashing at night to see if it will alleviate the problem. Our arsenic limit has gone from .05 to .01. Our last test was .005 which is below the limit. The District was just notified that the State is adopting a revised discharge policy for arsenic and the District has until March 31, 2007 to reply in writing with our design and schedule.

General Sullivan well runs approximately 80% of the time with Porter well

running the remaining 20%. There was a water break on South St. in February, the road will be repaired in the spring.

Reminders

Disposing of chemicals or gas in the ground is hazardous to our water supply.

Leaking toilets can be very costly. It can triple or quadruple your normal water bill.

SEWER

The District replaced the sewer line on Scoutland Road. State grant has been finalized and approved by Governor & Council.

The District is also in the process of upgrades to the new facility for automation by adding a scada system and new drainage pumping

There is on going updating of the old equipment and many new mandatory testing procedures by the State and EPA.

Reminders

Sump pumps overload the system. They CANNOT be hooked into the sewer lines. This is a fineable offense.

3. To authorize the Commissioners to raise and appropriate the operating budget of \$528,840.00 attached and proposed by the Commissioners for the year 2007. (Approved by the Budget Committee)

Clement Michaud made a motion to accept. Beverly Dionne seconded the motion. All were in favor. The motion was accepted.

SAU 56 - ROLLINSFORD SCHOOL DISTRICT

To the voters of the Rollinsford School District:

In November 2007, I began negotiations with the Rollinsford Teachers Association. We have negotiated a two year agreement, which the public will be voting on at the March 8th School district meeting. The agreement outlines that in year one the teachers will receive 3% increase in pay and the Nurse will receive additional 2.5% in the effort to bring her to 100% of the pay scale. In year two the teachers will receive 3.5% increase and the Nurse will receive an additional 2.0%

We are investigating our space needs at the Grade School and held a public meeting in January to outline what we have been working on. Our plan was to add to six classrooms to the existing school. With the public feedback we are now also looking at the possibility of building a new school. We have a warrant article to spend up to \$55,000.00 for a feasibility study working with Dan Bisson and removing these funds from the capital improvement funds. We hope to have a report by early fall and will hold a school district meeting to decide on what plan we will work with. Please become involved with this project the more opinions from town residents the more informed we all will be on what the right direction to take for our grade school.

We are not proposing any capital improvements to our school this year. With the budget committee's reduction of the \$50,000.00 we need to put on hold our projects. The only item that will be done is the boiler room door as this was a fire safety recommendation.

In closing, I would like to thank all the volunteers that help our every day at the Rollinsford Grade School. I would also like to thank the teachers and principals at the Rollinsford Grade School, Somersworth Middle School, Somersworth High School and the administration staff at the SAU56. Together we must continue to make a difference in the education of our children.

Respectfully submitted,
Denise M. Knowles

PRINCIPAL'S REPORT

To the Residents of Rollinsford:

The School Improvement Team (S.I.T.) at Rollinsford Grade School continues to make great progress! We are in our sixth year of seriously looking at our school and considering recommendations for improvement. The S.I.T. is made up of the supt. of schools, principal, guidance counselor, teachers, para professionals, parents and community members. In the past we have initiated school wide changes in how we view and teach the writing process. This year we are examining Differentiated Instruction (D.I.) Response to Intervention (R.I.T.), and Technology Integration.

We are also celebrating a yearlong theme: GOING GREEN! With the help of our school Green Team, we are emphasizing and implementing practices that help us reduce, reuse and recycle in order to be more Earth friendly! With that in mind, each month we celebrate green days by symbolically dressing in green. In addition to recycling plastic, aluminum and newspapers, we have begun to recycle paper. Volunteers bring this paper to the transfer station each month. We have held a poster contest and the cover design of this year's yearbook is a green theme. At our monthly assemblies the children have serenaded us with green songs which they have written while in music classes.

All students in grades 3,4,5, & 6 take 'Measures of Academic Progress' in September and May. MAP tests are unique in that they are adaptive tests taken on a computer. This means that the test becomes more difficult as questions are

answered correctly. When a student incorrectly answers a question, the test becomes easier. Therefore, students take a test specifically created for their learning level. MMAP testing is a powerful tool for monitoring student growth over time.

We have an active Web Development Group. Fifth and sixth graders, teachers, the principal and Tom Lebel, our volunteer web master, meet monthly to make sure that our web site is up to date. Check us out at www.rollinsford.k12.nh.us.

Our School has once again been designated a Blue Ribbon School by the New Hampshire Partners In Education. We were knowledgeable because we have a well documented and dynamic volunteer program. This award recognizes the power and impact of volunteers at our school.

This will be the eleventh full year of the Community Helpers Program. While participating in this community service oriented program last year, students logged over 3,000 service hours! This program absolutely has the potential to make Rollinsford and the world a better place. We are proud that it is a part of the Rollinsford Grand School "experience".

Finally, we are saying goodbye this year to one of our beloved teachers. After devoting the past twenty six years to educating the children of Rollinsford, Arlene Boucher has decided it is her time to retire. I know that I speak for many former students, parents and colleagues when I say, "MISS BOUCHER, YOU WILL BE GREATLY MISSED! YOU HAVE MADE A DIFFERENCE IN THE LIVES OF MANY AND WILL NOT SOON BE FORGOTTEN!"

ARTICLE IX

To see if the Town will vote to require the Road Agent to establish a manned checkpoint at the entrance to the Transfer Station to ensure that each vehicle entering the facility has valid entry permit and that tipping fees are properly assessed and collected before entry is allowed. (By petition)

Motion to accept as read by Larry Larkin, seconded by Richard Wasson. Richard Wasson motioned to have Article IX defeated. Robert Cullen asked if this would require another person at the transfer station. Carlton Spencer discussed the issue of putting stickers on the lower left corner of vehicle windshield, no reason to put a manned gate at the entrance of the transfer station. Larry Larkin discussed the reason for petition, as well as complaining about the local businesses disposing of large amounts of trash going into transfer station not from our town. Jim Jalbert questioned the percent of tonnage going into the transfer station yearly. Ed Jansen answers saying it is less than 3%. Mr Jalbert also expresses his concern about the number of cars that would be lined up in front of his business on Jesse Doe Road. Dan Marquis started and submitted petition. He addressed the last two comments and stated facts from a past selectmen's meeting regarding the disposal of Construction and demolition (C&D) debris. Rollinsford is generating the most amount of C&D debris in all the towns that Lamprey takes debris from. 2001-0 tons, 2002-60 tons, 2003-150 tons, 2004-164 tons, 2006-271 tons. Jessie Aikman questioned how much can we burn and do we still burn. Ed Jansen responded stating that the state as of 2001 you can only burn C&D debris. Cost to dispose C&D debris is \$78/ton plus hauling. It is currently costing the town to dispose of the C&D debris. There is a public hearing to discuss a new fee structure on April 11, 2007. Discussion continued on the difference between trucks and cars, as well as stickers being handed around among one another. Commercial Company's having their own stickers now being addressed and fees will be adjusted accordingly. Another area which is not going well is recycling, townspeople are not recycling. Richard Wasson stated that stickers must match the plate on the vehicle. Michelle Catellier commends the Transfer Station and the well done job they are doing. Ginny Bannon states that the stickers are not being checked regularly. Al Dionne discussing that checking of stickers was not done efficiently but this is changing for the better. Transfer Station employees currently working towards making the system more effective. Dan Marquis points out that it is costing the town money to haul. (Defeated)

ARTICLE X

To see if the Town will vote, pursuant to RSA 202-A:6, to elect a Board of Library Trustees consisting of three (3) persons to be the governing board of the

Rollinsford Public Library. "The library trustees shall have the entire custody and management of the public library and of all the property of the town relating thereto, including appropriations held pursuant to RSA 202-A:11,III, but excepting trust funds held by the town...Such trustees shall serve staggered three year terms or until their successors are elected and qualified. There may be no more than three (3) alternates as provided in RSA 202-A: 10. (By Petition)

ARTICLE XI

Salme Perry (Petitioner) and Nelson Lawry moved to withdraw the article. No discussion (Withdrawn)

ARTICLE XII

To see if the Town will vote, pursuant to RSA 202-A:4-d, to authorize "the public library trustees to accept gifts of personal property, other than money, which may be offered to the library for any public purpose, and such authorization shall remain in effect until rescinded by a vote of town meeting.

"Prior to the acceptance of any gift valued at over \$5,000 the public library trustees shall hold a public hearing on the proposed acceptance.

"No acceptance of any personal property under the authority of this section shall be deemed to bind the town or the library trustees to raise, appropriate, or expend any public funds for the operation, maintenance, repair, or replacement of such personal property." (By petition)

Motion to accept as read made by Larry Larkin, seconded by Sandy Bonin to accept Article XII. Jessie Aikman questioned where all this stuff will be stored until a Library is established. Sandy Bonin addressed question stating that people are currently storing items at their homes. Richard Wasson wants town property excluded and not conveyed. Ayes Carry (Voice Vote)

ARTICLE XIII

To see if the Town will vote to authorize the Selectmen, in consultation with the Conservation Commission, to place Tax Map 2, Lot 3 (i.e., the approximately 100 acre Town owned Scoutland property which is currently zoned as Conservation) under a development rights to a grantee organization whose purpose is to act as a conservation easement holder) and to expend funds from the Land Trust Fund to finance land survey, appraisals, and other related expenses incurred in placing the properties under a conservation easement. (By petition)

Motion to accept as read made by Nelson Lawry, seconded by Jesse Aikman. Dan Marquis explains this goes back to 2004 when it was voted and approved and this is just a continuation to put the land into a conservation easement. Richard Wasson just reminding all that it is not currently being developed. Mike Rhodes questioning the 100 acres and if the town had an opportunity to sell and profit from the 100 acres does this eliminate that possibility. It is explained by the Steve Roberts that it is like selling your house. It is a permanent transfer. Though the town would still own the land it just would be transferring its right to develop the land for commercial or industrial purposes. It still could be used for agricultural, forestry or Wildlife Management. The town could then sell the entire fee interest which is the entire property subject to the easement. Elizabeth Marcotte expresses the importance of having an opportunity to save it reflects positively on

the Town of Rollinsford. Carlton Spencer expressing his concern to use money to have it surveyed when it should be left alone and it need no boundaries. Michele Small wants to know if the town is keeping the property for an investment or are they holding it to preserve it or use it for future school or other use. Ed Jansen says it is important to have it surveyed for a legal description to be able to pass over into an easement. Richard Marquis explains that the land is currently zoned conservation and it does not help it long term. An easement would put it into permanent conservation land. Charlie Putnam voices concern that this land is at risk in the future and noted that this is the best conservation land on the Salmon Falls River in Strafford County. He believes that the towns' people consistently want to conserve this land. Joe Caouette points out that several conservation agencies would like to use this land and we want to save it. Robin Aikman expresses that generations of families have grown up here and think it is very important to save it. Ed Jensen wants people to understand that there is other land available if a school is needed. Nelson Lawry expresses that we should save this beautiful land. Ayes Carries (Voice Vote)

The salt shed alone will cost \$100,000. Mr Cullen would like to know the size, and will it accommodate all the vehicles. Al Johnson explained that there is currently an EPA issue with the current Salt and Sand pile. The EPA said that it has to be moved and cleaned up. James Jalbert explains that this is an ideal time to relocate the highway dept to a new location. The longer we wait to build the more expensive it is going to cost the town. Carlton Spencer expresses how Al Johnson goes above and beyond his job specifications. Ayes carry (Voice Vote)

ARTICLE XXV

To see if the Town will vote to raise and appropriate one hundred fifty thousand dollars (\$150,000) for facilities improvement at the Fire Station and authorize the receipt and expenditure of a Federal Grant in the amount of \$142,500, with the remaining \$7,500 to be raised by taxation. Sonny Foss expresses his concern regarding the condition of the Police Department and the hazardous working conditions for the Police Department staff as well as the town hall staff. This was discussed last year and wants to know what was done? Chief Ducharme explains that the selectmen are the ones handling this problem. Ed Jansen, states that there was a study done and that Chief Ducharme is in charge of this study. Chief Ducharme explains that there was a report done and states that there is an airborne mold issues with in the whole building that is being generated from the evidence room area. This is effecting not only the police department but all the employees in the whole building because it is in the central air system. There is also physical mold on the walls in the police department which was not addressed in the study. Nelson Lawry wants to know if the poor construction work on the town hall is the result of our problem and if the issue is going to be addressed? Elizabeth Marcotte and Dan Marquis express concern that at last year's town meeting this was addressed and assumed taken care of? We were supposed to hire a consultant with the \$10,000 to report on the water problem. Nelson Lawry wants his question answered. Ed Jansen stated that the water is coming from the tower on top of the Town Hall. Ed Jansen is also states that the mold is not a health risk at this time and until we address the water issue we can not undertake the mold issue. Al Dionne explains that the contruction done on the town hall was not completed in a satisfactory manner. The town went through arbitration and held back money and then signed off not to sue them in the future to avoid court proceedings. Richard Wasson reiterates that the issue of water has been discussed repeatedly for several years at the town hall meeting. Laura Smith would like to know what happened to the money that was not paid to the Consturction Company and is it possible to form a committee to move forward with this issue. Al Dionne states that rain is not pouring into the building, every time it rains; Al Dionne continues to say that you can not get just anyone to fix the tower. The company hired has a great reputation and he recommends that we stick with them. He continues to keep contact and work with the company. He hopes they will come this spring. Ginney Bannon has asked if there are any dehumidifiers downstairs, and recommends that the police station uses dehimidifiers to help with the mold issue. Dan Marquis states that we need to find out how severe the health and safety issue is, regarding the mold. \$10,000 was put back into the general fund and Ed Jansen knows that \$10,000 is not enough money to do the project but it is a place to start if more money is necessary then the town will pay it. Ayes carry. (Voice Vote)

ARTICLE XXVIII

To see if the Town will vote to raise and appropriate fifty thousand dollars (\$50,000) to renovate the second floor of the Town Hall and to authorize the acceptance of private gifts and/or private grants to fund the renovation. (Renovation will not be undertaken until required gifts or grants have been received.) The Budget Committee and the Selectmen recommend this appropriation. (Majority vote required)

Motion to accept as read made by Carlton Spencer, and seconded by Jessie Aikman. Larry Larkin wants to know if \$50,000 dollars is going to be enough. And will this issue be revisited year after year. Richard Salvatti is saying that \$50,000 is not going to be enough and that we are just in the beginning stages of pricing out the future cost of the second floor balcony. Nelson Lawry is wondering if the renovation of the second floor would be halted due to the condition of the tower and should we put that on hold till the water issue is addressed. Mrs Putnam

wants clarification whether the money is coming from grants and outside sources or if some of it coming from the town budget. Article XXVIII was amended to read as follows: To see if the Town will vote to raise and appropriate fifty thousand dollars (\$50,000) to renovate the second floor of the Town Hall with private gifts and/or private grants to fund the renovation. Gail St. Hilaire is also concerned for the safety of her home. Ayes Carry. (Voice Vote)
